Learning Goal 7.2

I can determine the scale factor of an enlargement or reduction and use it to reduce or enlarge an image.

Enlargement**Reduction**

Consider the following pictures. Do they represent an image that has been reduced or enlarged?

Image 1	
Image 2	
Image 3	
Image 4	
Image 5	
Image 6	

Now, how much bigger/smaller are they?

How would the scale factor of a map compare to that of the sour key?

Reductions	Enlargements
