**Imperial**

**Comparing Imperial and Metric**

Imperial Unit				
Metric Unit				

**More Excitingly**, here are 6 different kinds of candy. I have a ranking for them, but you need to find it. The following table shows 'candy equivalencies.'

6 Jelly Bellies	Is worth the same as	9 Hi Chew
3 Nibs		12 Sour Patch Kids
3 Sweet Tarts		15 Swedish Berries
8 Sour Patch Kids		4 Jelly Bellies
6 Hi Chew		5 Swedish Berries
9 Sweet Tarts		3 Nibs

For example, I prefer Jelly Bellies over Hi Chew, because I would trade you 9 Hi Chews for 6 Jelly Bellies. The candy which I enjoy the most is that which I would take the fewest pieces of!
