

Name: _____

Date: _____

Warmup How well did this class do on their tests?

45 68 94 76 89 99 53 79 61 61
 98 72 61 81 98 59 91 68 71 32
 57 69 42 78 47 87 78 74 48 87

It would make sense to group the data in some way. So we will create a Frequency Distribution.

| | | | | | | | | | |
|-----------|--|--|--|--|--|--|--|--|--|
| Score | | | | | | | | | |
| Tally | | | | | | | | | |
| Frequency | | | | | | | | | |

Can we represent this graphically?

1. Histogram

2. Frequency Polygon

Measures of Central Tendency?
